

FALL RIVER VALLEY CSD

PO Box 427, 24850 Third Street, Fall River Mills, CA 96028 530-336-5263

Sanitary sewer customer,

It has come to our attention that in our town of Fall River Mills, the sanitary sewer system has been encountering blockages due to non-disposable items being allowed into the system from residential connections. The community services district asks that our customers please be cautious as to what they are flushing down the toilet and pouring down the drains in their homes. Here is a brief list of items that may cause blockages in our sanitary sewer system:

- Feminine hygiene wrappers and products
- All cooking or household grease
- Heavy duty paper towels
- Moist wipes such as baby wipes

Please note that there are many more items not on this list that should not be allowed into the sanitary sewer system. The Fall River Valley Community Services District asks that our sanitary sewer customers be attentive as to what they are allowing into our community's system to keep it functioning properly.

Thank you for your cooperation,

Fall River Valley Community Services District
